PRINCE2® (**PR**ojects **IN** **C**ontrolled **E**nvironments) is a process-based method for effective management. PRINCE2® provides an easily tailored and scalable project management methodology for all types of projects. PRINCE2® describes procedures how to design, supervise and evaluate a project, how to coordinate people, resources and activities and what to do if the project has to be adjusted if it doesn't progress as planned.

**What is this course about?**

The course will help those running projects of any size in any environment to effectively deliver what is required appropriately managing the costs, timescales, quality, scope, risks and benefits. The course will provide participants with a complete and practical understanding of the PRINCE2® management method.

**Who is the course for?**

- Project Support staff
- Project Managers
- Middle/Senior Managers
- Directors/Executives of projects.

**What are the learning objectives?**

- Understand the relationships between the roles, management products, principles, themes, techniques and processes
- Be able to apply the principles, themes and processes to a project
- Be able to create and assess management products.

**What are the benefits?**

- Gain a recognised industry standard qualification
- Commercial edge over others
- Increases employability
- Broadens skills base.

The PRINCE2® Foundation and Practitioner course is an intensive, interactive training programme over 5 days leading to Practitioner accreditation on successful exam completion. Participants are expected to complete pre-course study and self-study in the evenings during the course.

Cost includes tuition course materials, pre-course workbook, PRINCE2® manual, exam fees, lunch, refreshments and onsite parking.
